EXECUTIVE SUMMARY

ECE graduate with a Minor in Business Data Analytics, experienced in React, Next.js, Node.js, Flask, MySQL, and REST APIs. Gained development experience through a Python web development internship and a full-stack internship, applying skills across 3 independently built web projects with 2 live deployments. Eager to contribute to developer roles.

PROJECTS

College Conference Website | HTML, CSS, JavaScript, Node.js, MySQL Aug 2025 - Oct 2025

- Built a responsive 7-page conference website using HTML, CSS, and JavaScript for the frontend, supporting 3 core workflows: user registration, login, and paper submission.
- Built an admin dashboard to track registrations, monitor paper submissions, and approve/reject papers with status tracking.
- Developed backend with Node.js, Express, and MySQL with 2 relational tables (users and papers) for data storage.

Generative AI Dashboard | Next.js, Node.js, TypeScript, Tailwind CSS, Vercel Jan 2026 - Feb 2026

- Built a Next.js (TypeScript) frontend with a lightweight Node.js server as part of the HCL GUVI Generative AI Intensive Program, visualizing data from 5 sensors with real-time alerts and anomaly explanations.
- Applied 3 Generative AI concepts: LLM-based insights, prompt engineering, and AI-assisted data interpretation.
- Designed a responsive, mobile-first UI using Tailwind CSS with clean frontend-backend separation.
- Deployed on Vercel with auto-deployment from GitHub. Live Link : <https://dashboard-akshitha.vercel.app/>

Intelligent Pesticide Sprinkler - Web Application | React, Flask, REST API, ESP32 Dec 2025 - Mar 2026

- Built a fully bilingual (Tamil & English) React web application for farmers to upload crop images, view AI-based disease detection results, and remotely trigger pesticide spraying.
- Developed a live sensor dashboard displaying real-time data from 4 sensors via REST API integration with a Flask backend.
- Solely responsible for the web application layer in a 2-team hardware-software system, collaborating with the hardware team on ESP32 integration.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern - Conprg Technologies Jan 2026 – Jun 2026

- Gained hands-on experience with React, SQL Server, and Git/GitHub, which was applied in building the Intelligent Pesticide Sprinkler academic project — a 4-sensor real-time dashboard with REST API integration.
- Practised building React-based frontend interfaces with responsive layouts, learning how to handle real-time data rendering and component state management.
- Learned how frontend and backend layers communicate using JSON for structured data exchange via REST API calls to a .NET backend.
- Practised CRUD operations and database schema design using SQL Server.

Python Web Development Intern - Pemchip Infotech Jun 2025 - Jul 2025

- Gained core web development skills - HTML, CSS, JavaScript, and backend logic - which were applied in building the 7-page College Conference Website academic project with login, registration, and admin workflows.
- Completed training exercises including a Python-based typing practice application, developing familiarity with input handling, application flow, and debugging.
- Practised building frontend pages including login interfaces, learning to structure HTML/CSS layouts and connect them to backend logic.

TECHNICAL SKILLS

Web Technologies : HTML, CSS, JavaScript, TypeScript, Responsive Web Design, Tailwind CSS, React, Next.js
Backend : Node.js, Express.js, Flask, .NET, RESTful APIs, JSON
Databases : MySQL, SQL Server
Tools : VS Code, Git, GitHub, Vercel
Programming : C Programming, Python

EDUCATION

Thanthai Periyar Government Institute of Technology, Vellore	2022-2026
B.E. Electronics and Communication Engineering (ECE) - CGPA: 7.93	
Minor: Business Data Analytics	

CERTIFICATIONS

HTML, CSS and JavaScript - LinkedIn Learning (2025)
Excel 2024 Essential Training (Office 2024 LTSC) - LinkedIn Learning (2025)
C Programming Certification (2026)

ACHIEVEMENTS

1st Prize - Intercollege Hackathon - TPGIT (2026) - Built an AI-powered chatbot using n8n
State Level Paper Presentation - Arunai Engineering College (2023)
